

Own the bot. Keep your edge.

One-time \$599 — it's yours. Runs on your machine, your broker, your AI key. No subscription to trade, no per-trade fees, no revenue share.

\$599 once

optional AI Director \$59/mo · 10-day free tri

Buy once, own it

No endless subscription to run the bot. \$599 today — it keeps trading for you, with free updates.

It's yours, end to end

Runs on your own PC and your own Alpaca account. Bring your own AI key (Claude, GPT, Gemini, Grok or local) — we never resell tokens.

Smart, and guard-railed

37 strategies vote on every trade; the optional AI Director reads the news & market regime and steers within hard safety limits.

Own it once vs. rent forever

Typical 5-year software cost — WildcatQC is a one-time buy; the rest bill every month.

WildcatQC bot	 \$599 once
Composer	 \$1,920
QuantConnect	 \$2,880 + compute
TrendSpider	 \$3,210
Tickeron	 \$4,200 ~
Trade Ideas	 \$5,340

WildcatQC = bot, one-time (AI Director optional, \$59/mo). Competitor figures use a representative annual tier x 5 years; higher tiers cost more.
